SAFULAUNCHER

IDEAS TO IDOs

Empowering the future of decentralised finance with on-chain innovation

SAFU Launcher is an AI-enhanced DeFi platform for launching IDOs fully on-chain while ensuring secure investments

$1.5B

IDO launchpad market capitalisation

With 115 IDO launchpads created in the last 4 years, the importance of leveraging decentralisation is high
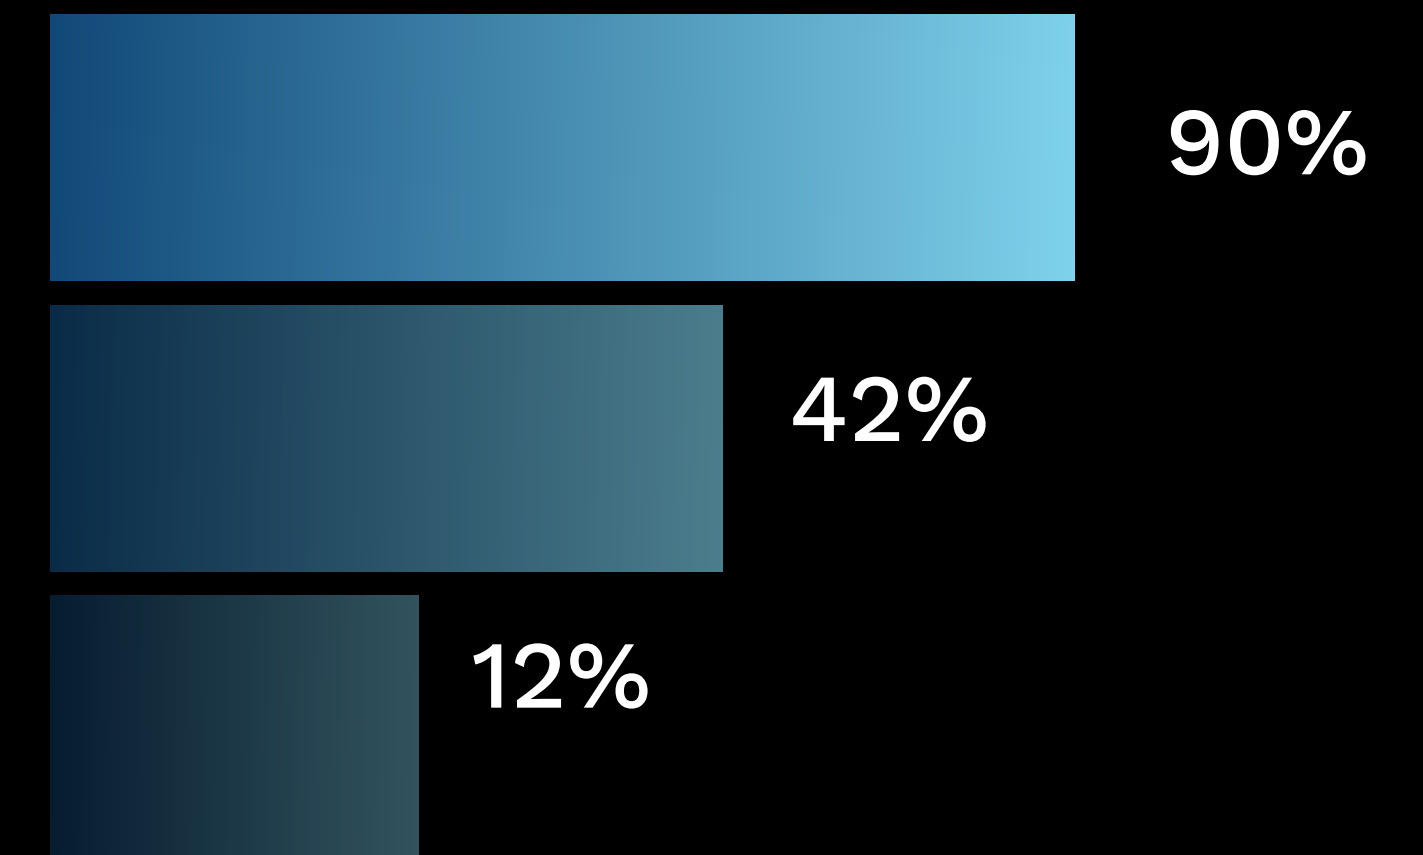

Quote

Initial Dex Offering (IDO) Launchpads are emerging as a significant trend in the DeFi ecosystem, powering blockchain innovation and attracting investor interest

$180B

funds raised

1.5x average RoI for top 10 launchpads

Problems with Launchpads

Similar business models across launchpads that are undemocratic and lack transparency

Centralisation concerns

Cumbersome to use and navigate IDOs or token sales

Inadequate UX

Launching projects, token sales, liquidity locking, token vesting – launchpads incur high fees and gas costs

High user costs

Most launchpads are prone to rug-pulls despite claiming otherwise

Prevalent rug pulls

Solution

Enabling a resilient DeFi ecosystem with seamless and lucrative launches

Inherent Decentralisation

Smart fully on-chain architecture for swift and successful launches

Intuitive Design

Effectively designed for an easy and efficient user experience

Accessible
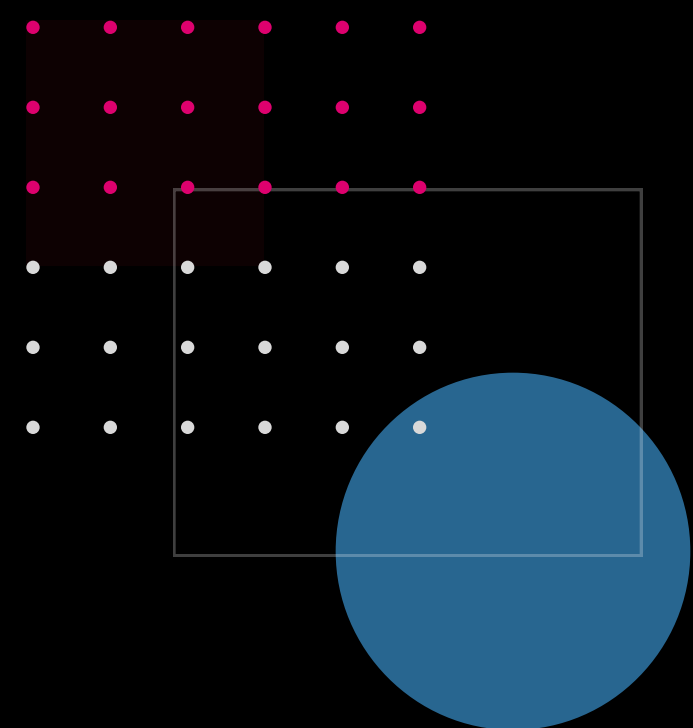

Cost-effective approach for fair and democratic access

Scam Resistant

Robust tech prevents rug pulls and manipulation

Innovative Mechanics & Functionalities

Features

Custom tokenomics

Integrated staking pools

Native token vesting

Liquidity lock

Presale

Cross-chain

AI-Enhanced

For Projects

Secure and effortless launches to ensure project success and viability

For Investors

New and diverse investment opportunities with lower risks and higher trust

SAFU Ecosystem

SAFU Launcher is a sustainable DeFi ecosystem as it offers multiple avenues for user engagement, participation and contribution, driving adoption and value

1. Build token economies based on trust with SAFU Launcher

2. Discover promising projects and innovative ideas for investment

3. Participate in SAFU DAO governance and gain power with SAFUscore

4. Enable GameFi by creating in-game tokens

Competitive Advantage

Feature	Competitors	SAFU Launcher
High initial tax	Not Offered	Set high tax rates on initial trades to thwart sniper bots
Staking pool	Not Offered	Projects can launch staking pools for their tokens
Liquidity lock & token vesting	Incur high user fees	Free in-built features
Presale launchpad	Gated and tiered access increasing centralisation concerns	Decentralised access to presales

Roadmap

2024

Open source & verified smart contracts

Mainnet contract launch

Decentralised subgraph publication

SAFU presale

SAFU liquidity pool on Uniswap

SAFU staking pool launch on mainnet

2024

ERC20 SAFU token launcher

LP token locker

Token vesting

Staking pool launcher

Presale launchpad

2024

White paper

Website

SAFU verse launch mainnet

Testnet v0.1

Testnet v0.2

2025

SAFU DAO ownership of SAFU contract and treasury

SAFU AI integration to launcher

SAFU AI integration for investment decisions

2024

Expansion to major EVM networks

Telegram bot for promotions

Telegram/Discord bot for launches from chat

SAFU DAO testnet launch

SAFU DAO mainnet launch

Building Immutable Trust
